

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application.

Please amend the claims as follows:

Listing of Claims

1 – 24 (cancelled)

25. (New) A computer system for vertical placement in a computer system structure, the computer system comprising:

- a processor;
- a communications port in electronic communications with the processor for electronic communications;
- memory in electronic communication with the processor for storing data; and
- a housing for the processor and the memory, the housing being substantially rectangular, the housing being configured such that the computer system may be vertically placed into the computer system structure by sliding the computer system into the computer system structure whereby the computer system slides back such that the communications port is accessible.
